```
# Load required libraries
library(ggplot2)
# Load the data
data <- data.frame(x = 1:4,
                   y = 1:8,
                   group = rep(letters[1:4], 2))
# Create a plot
ggp <- ggplot(data, aes(x, y, group = group)) +
  geom_line() +
  coord_cartesian(ylim = c(3, 10))
# Show the plot
ggp
```
