```
# Load required libraries
library(ggplot2)
# Load the data
data <- data.frame(x = 1:10,
                    y = 1:10)
# Create a plot
ggp <- ggplot(data, aes(x, y)) +
  geom_point() +
  theme(plot.margin = unit(c(3, 3, 3, 3), "cm"))
# Show the plot
ggp
```
